

Instructions

1. You are required to create a two-page website using HTML and CSS.
2. Create the following files in your working folder:
 - index.html (Home Page)
 - gallery.html (Gallery Page)
 - style.css (External CSS file for both pages)
 - images folder for storing pictures
3. Use the images and webpage screenshots provided in the Resources folder.

Question

You are required to create a Local Art Exhibition Website consisting of two pages:

Part A: Home Page (index.html)

1. Create a header section:
 - Add the Exhibition logo (provided in images folder).
 - Add the Exhibition name as a heading.
 - Make the header sticky (visible when scrolling).
 - Set a background colour #F1F5F9 (Light Gray Blue) for the header.
 - Add a heading bar below the logo with:
 - Background colour: #1E3A8A (Deep Navy)
 - Text colour: #F9FAFB (White)
2. Create a Main Content Section containing:
 - About Section, Mission Section and Vision Section:
 - Place inside a bordered box with rounded corners, padding, and margin.
 - Add a semi-transparent white background (rgba(255,255,255,0.9)).
 - Use justified alignment.
 - Apply box shadow.
 - Heading colour: #1E3A8A (Deep Navy)

3. Add an Interactive Button:
 - Place in the centre.
 - The button should link to the gallery page.
 - Apply the following styles in style.css:
 - Background colour: **#1E3A8A** (Deep Navy)
 - Text colour: **#F9FAFB** (White)
 - Padding and Rounded corners
 - Hover effect: background colour changes to **#162F6A** (Darker Navy)
4. Add a footer section:
 - Display copyright information
 - Centre the text
 - Add background colour **#1E3A8A** (Deep Navy) with text in **#F9FAFB** (White)
 - Footer should be sticky at the bottom

Part B: Gallery Page (gallery.html)

1. Create a header (same design as Home Page):
 - Add "Featured Artworks" as the heading text
2. Create a Gallery Section:
 - Add 2 images from the images folder and arrange them in a 2-column layout (you may use flexbox, grid, or inline-block).
 - Add spacing (margin/gap) between images.
 - Each image should be inside a box with:
 - Background: **rgba(255,255,255,0.9)** (Semi-transparent white)
 - Border colour: **#1E3A8A** (Deep Navy)
 - Rounded corners
 - Box shadow
 - Apply a hover effect (zoom/shadow in navy tone).
 - Add captions/titles below each image and caption text should be bold and coloured **#1E3A8A** (Deep Navy).
3. Add a Navigation Button back to the Home Page:
 - Centre the button.
 - Background colour: **#0D9488** (Teal)
 - Hover colour: **#0B6B65** (Darker Teal)
 - Text colour: **#F9FAFB** (White)
 - Padding and Rounded corners
4. Add a footer (same design as Home Page)
